SUMMARY

Crime, like the weather, waits for no one. But there are also times when these two forces cross paths, creating a perfect storm of violence and chaos. When the high stakes of extreme weather meet the thrilling mystery of murder, you end up with *Storm of Suspicion*. This gripping true crime series examines spellbinding events where weather played a central role in solving or covering up the crime.

Each one-hour episode, featuring experts and forensic meteorologists, is shaped as a real-life whodunit with weather ultimately playing the pivotal role in how the crime was resolved. It's really the ultimate procedural-reality-drama show. From blizzards to hurricanes, floods to heat waves, *Storm of Suspicion* proves that when it comes to solving mysterious crimes, Mother Nature can be detectives' best friend... or their worst enemy. *Storm of Suspicion* is produced by the EMMY Award Winning production teams at *AMERICA'S MOST TRUSTED TV NEWS NETWORK*, **THE WEATHER CHANNEL**, and is distributed exclusively by ENTERTAINMENT STUDIOS TELEVISION.
